Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED OFFICE ACTION

Faxing of Responses to Office Actions

In order to reduce pendency and avoid potential delays, TC 3700 is encouraging FAXing or responses to Office Actions directly into the Group at (571) 273-8300. This practice may be used for filing papers, which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into TC 3700 will be promptly forwarded to the examiner.

1. Claims 1, 2, 6, 8 and 11 have been amended for further examination.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 2, 6 and 11 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Machnikowski in view of Bershad (2,096,354).

Machnikowski discloses in Fig. 1-5, a bookmark comprising: a bookmark body (58, 62, 45, 40) having a folding surface (64A) that is bendable (seen in Fig. 5) and can include parallel folding lines (48, in Fig. 3) or a groove (42, in Fig. 2); wherein the body also has a protection surface (66A, which is under a clip, 68) on which a bookmark clip (68) is mounted; wherein the body also has a folding sheet (64) extending from the folding surface (64A); wherein the bookmark clip can have a width substantially equal to the body (Col. 5, lines 11-14) and is adhesively mounted on the bookmark body (Col. 4, lines 11-14, and Col. 5, lines 6-8); and wherein the bookmark clip is made of plastic, metal or other resilient material (Col. 5, lines 8-11).

However, Machnikowski does not disclose wherein folding surface is bent over one or more pages of a book, and the folding sheet is inserted between two inner pages of a book.

Bershad discloses in Fig. 1-3, a folding surface (12A) at a length which is bent over one or more pages wherein a folding sheet (12) is placed between pages of a book.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Machnikowski's bookmark with a bookmark body having a folding surface and an extended folding sheet as taught by Bershad for the purpose of marking the location of a page in a book.

Allowable Subject Matter

3. Claim 8 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments with respect to claims 1, 2, 6, 8 and 11 have been considered but are moot in view of the new ground(s) of rejection. The Bershad reference is now used to disclose a bookmark body having an extended folding sheet for placement between pages.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO**

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
